

NEW YORK: The city that never sleeps

PEDAGOGY

Objectifs: - cultural: I am able to expose a NYC presentation EO

- based on authentic documents I discover the commercial strategies used by travel agents while implementing inference strategies. CO

Intermediate tasks: I gather words from a specified lexical field: the one coming from the city and the one from sightseeing and leisure.

Finals task: As a travel agent you give a sightseeing tour of NYC to tourists. I choose monuments and sites to be visited and explain the reasons of my choices. EO

PART N° 1

Each group chooses to present a borough with the help of the given documents and presents it to the class

New York City map

- The Five Boroughs
- New York City is made up of five boroughs: the Bronx, Queens, Brooklyn, Manhattan and Staten Island. Each one has enough attractions—and enough personality—to be a city all its own.

THE BRONX

- Summertime in the Bronx means New York Yankees baseball season is in full swing, but that's not the only thing that has people cheering. It's a monumental year for the borough, which is celebrating its centennial as a county in 2014. And those who have spent time here understand its charm: the peaceful floral surroundings at the New York Botanical Garden; a visit with giraffes, sea lions, pandas and more at the Bronx Zoo; or a culinary journey to the Bronx's own Little Italy along Arthur Avenue. The Bronx also features two grand green ways for a warm summer's day: Van Cortlandt Park and Pelham Bay Park. Both offer golf courses, historic houses, playing fields and recreational areas

BRONX

Act n°1: describe the pictures from this borough
with the help of the article

BROOKLYN

- Families can head to Prospect Park, where attractions include a zoo, expansive meadows and waterways, a natural forest and free concerts. Thrill seekers will want to go straight to Coney Island, where the newest Luna Park roller coaster, the Thunderbolt, may be the scariest yet. Sightseers, meanwhile, can relax and take in harbour views during a stroll over the Brooklyn Bridge or through the stately streets of Brooklyn Heights

MANHATTAN SKYLINE

New York City is defined by its skyline—the silhouette created by Manhattan's buildings is instantly recognizable and utterly mesmerizing. In fact, NYC is home to more than 200 buildings measuring 500 feet or taller.

Act n°3: After reading, describe pictures and your feelings about them

QUEENS

- Queens is home to a range of neighbourhoods, from art-centric Long Island City to international food enclaves like Flushing for Asian eats, Jackson Heights for Indian dishes and Astoria for Greek fare. Find numerous outdoor activities such as the free Socrates Sculpture Park, the Queens Botanical Garden and the Bohemian Hall & Beer Garden. Board NY Waterway for a cool ride to a Mets game at City Field or visit Flushing Meadows Corona Park, whose facilities include sports fields, playgrounds and the Queens Museum, which is celebrating the 50th and 75th anniversaries of the 1964 and 1939 World's Fair with special exhibitions like Andy Warhol's.

Aspect of the borough according to the picture and the text

Close to Manhattan, The Queens seems to be a place linked to outdoor activities and art. Nice place to live out of the city that never sleeps...nice place to rest

STATEN ISLAND

- Staten Island is home to more than 12,000 acres of beaches and parkland. A fun—and free—way to access the island is via a 25-minute ride on the Staten Island Ferry, which cruises within view of the Statue of Liberty and Governors Island. After arriving at the St. George Ferry Terminal, it's a short walk to Richmond County Bank Ballpark, home to the Staten Island Yankees, or uphill to the neighbourhood of St. George, which features a collection of historic homes. Summer is also a great season to explore the Staten Island Greenbelt—a 2,800-acre network of lush parks, wetlands, open meadows, hiking trails and a picnic stop. For a fun trip with the kids, visit the Staten Island Zoo
